### **Conclusion**

For the reasons explained above, all pending claims are now in condition for allowance. Accordingly, the applicant respectfully requests that the Office issue a Notice of Allowance.

Any amendments to the claims are made to expedite prosecution of this application, without acquiescing to the Office’s rejections or characterizations of the claims or references in the Office Action: Any claim amendments not specifically discussed or explained in the above remarks are not made for patentability purposes, and these claims would satisfy the statutory requirements for patentability without these amendments. Rather, these amendments have only been made to increase claim readability, to improve grammar, or to reduce the time and effort required of those skilled in the art to clearly understand the scope of the claim language. Even if not expressly discussed above, the applicant respectfully traverses each of the rejections, assertions, and characterizations regarding the disclosure and teachings of the cited references, including the prior art status and the propriety of proposed combinations of cited references.

The applicant has made a good faith effort to respond to all rejections set forth in the Office Action and to place the pending claims in condition for immediate allowance. If the Examiner has any questions or comments, the Examiner is requested to contact the undersigned at 612-766-8245.

Respectfully submitted,
